

# Long Steel Tape Measure

This long steel tape measure is designed for accurate long-distance measurements. It features a robust casing and a high-quality measuring tape, suitable for construction, surveying, and landscaping.

## Overview

### Professional Long-Distance Measuring

The Long Tape Measuring Series JH-L03 is a durable and reliable tool engineered for high-precision long-distance measurements. Designed for demanding environments such as construction, surveying, and landscaping, it features a robust casing for enhanced protection and grip. This tool utilizes high-quality materials to ensure resistance to stretching and consistent accuracy over time.

## Technical Specifications

### Suitable Applications

- Construction
- Surveying
- Landscaping

### Key Features

Robust Casing • Stretch Resistant • Easy Grip

Series Model	JH-L03
Tape Material	Steel, Fiberglass
