Product Overview

Professional Educational Lighting Solution

This LED Grille Panel Pendant Lamp is engineered to provide superior illumination for educational and professional environments. Featuring advanced low-glare technology and a high color rendering index (CRI) of 90+, it delivers accurate, comfortable light that minimizes eye strain. The robust, anodized construction ensures corrosion resistance, while the integrated heat dispersion structure promotes long-term reliability and energy efficiency.

Key Performance Metrics

Color Rendering Index (CRI)	90 Ra
Visual Comfort Features	No flickering, No ghost images, No ripple curve, Low UGR

Technical Specifications

Design & Build

- Anodized surface treatment
- Corrosion-resistant
- Integrated heat dispersion structure
- Grille panel design

Applications

Suitable Environments

Classrooms • Shopping Malls • Factories • Exhibition Halls
