

# Low Pressure Air Spray Gun

This is a high-performance, low-pressure spray gun. It features a precision-engineered nozzle and air cap for optimal atomization and spray pattern control.

## Product Overview

### High-Performance Spray Technology

This low-pressure spray gun is engineered for superior atomization and precise spray pattern control. Designed for professionals, it features a high-performance nozzle and air cap system that ensures consistent application across a wide range of coatings. Its durable construction is built to withstand rigorous use in demanding industrial environments.

## Technical Specifications

### Spray Technology

Low Pressure

### Core Components

- Precision-engineered nozzle
- Advanced air cap system
- Durable construction materials

### Model Identifier

RARL-100
