Product Overview

Efficient Heating Solution

This low-profile electric space heater is engineered for consistent, intelligent climate control in residential or commercial spaces. Featuring an aerodynamic design and advanced convection technology, it ensures rapid, whole-house heating while maintaining a whisper-quiet operation level of just 10dB. With precise temperature regulation and a suite of integrated safety features, it offers a reliable and unobtrusive heating experience.

Performance & Control

Temperature Accuracy

0.1 °C

Temperature Variance

Operating Noise Level

10 dB

Safety Features

Safety Standards

IP24 Waterproof, Dump Power-Off, Overheating Protection

Design & Build

Key Features

- Intelligent temperature sensing regulation
- Aerodynamic design for enhanced convection
- Large air inlet
- Odorless and lightless operation
