Product Overview

Professional Low Speed Masticating Juicer

The JSJ-01 slow masticating juicer is engineered for high-efficiency extraction, utilizing low-speed cold-press technology to minimize oxidation and prevent delamination. Featuring a powerful 330W DC copper motor, it operates at a consistent 54rpm to maximize nutrient preservation. Designed for professional kitchens and domestic use, the unit incorporates an intuitive dual-function knob and a durable ABS injection-molded body.

Technical Specifications

Core Power Metrics

330 W

Motor Power

54 rpm

Operating Speed

80 db

Noise Level

Voltage Compatibility

- 220-240V 50-60Hz
- 100-120V 60Hz

Certifications

Compliance and Safety

ETL, CETL, CE, CB, GS, RoHS, LFGB, REACH

Logistics

Container Loading Capacity

Container Type	Quantity
20'GP	700 pcs
40'GP	1400 pcs
40'HQ	1670 pcs
