Product Overview

Professional Induction Rice Cooker

This advanced induction heating rice cooker is designed for high-efficiency, even cooking performance suitable for modern commercial or home kitchens. Featuring specialized low-sugar cooking technology, it helps reduce the glycemic impact of rice while maintaining texture and flavor. With precise temperature control and versatile cooking functions, it offers a reliable solution for preparing various rice types with consistent results.

Technical Specifications

Power Rating	1250 W
Capacity	4L, 5L
Heating Technology	IH (Induction Heating)
Quick Cook Duration	25 mins

Features

Cooking Functions

- 11 cooking functions
- 4 rice choices
- 3 taste profiles
- 24-hour timer delay
- Power-off memory function

Construction	Steel inner pot with high thermal conductivity
Interface	Touch control panel

Design & Aesthetics

Available Colors

Black • Claret • Customizable
