Product Overview

Professional LPG Heating Solution

This high-performance LPG gas torch is engineered for versatility and reliability in various heating applications. Featuring a durable, flexible rubber hose and a precision-engineered burner head, it ensures optimal flame control and efficient heat distribution. It is an ideal tool for industrial, culinary, and agricultural tasks, including animal hair removal, barbecue lighting, soldering, and brazing.

Technical Specifications

Construction Materials

- Stainless steel burner head
- Durable black rubber hose
- Brass control valve

Key Features

Precision Flame Control • Flexible Reach • Consistent Gas Flow • Secure Tank Connection

Primary Applications

Animal Hair Removal, BBQ Lighting, Soldering, Brazing, Heat Treating
