

LPG Portable Generator with 220V Outlet

This portable generator is designed for AC power supply using LPG. It includes a voltmeter for monitoring voltage output and a circuit breaker for safety.

Overview

Reliable Portable Power

The LPG2500 is a robust portable generator engineered to provide a consistent AC power supply for various applications. Designed with safety and ease of use in mind, it features an integrated voltmeter for real-time monitoring and a circuit breaker to protect connected equipment. Powered by LPG, this unit offers a clean and efficient fuel solution, complete with a protective frame for durability in demanding environments.

Technical Specifications

Fuel Source	LPG
Output Voltage	220 V
Model Number	LPG2500

Features

Monitoring

Integrated Voltmeter

Safety Features

Circuit Breaker, Protective Frame

Included Accessories

Included Items

- Gas hose for connection
