

LPG Powered Steam Cleaner

This steam cleaner uses LPG to generate high-pressure steam for effective cleaning. Its stainless steel construction ensures durability and resistance to corrosion.

Product Overview

Industrial LPG Steam Cleaning Solution

The YX-a(LPG) S is a high-performance steam cleaner designed for demanding industrial and commercial cleaning tasks. Utilizing LPG for efficient heating, this unit generates powerful steam to effectively remove stubborn grease, grime, and dirt from machinery and vehicles. Its mobile design and robust construction make it an ideal choice for versatile, heavy-duty maintenance environments.

Performance Metrics

Steam Pressure

8 BAR

Pressure

0.8 MPA

Pressure

Steam Temperature	60°C - 110°C
Preheating Time	60 seconds

Operational Specs

Gas Consumption	0.8 kg/h
Water Consumption	18 L/H
Water Tank Capacity	50 L
Battery System	24V DC

Design & Build

Model Number	YX-a(LPG) S
Weight	95 kg
Dimensions	108 x 48 x 90 cm

Features

Key Features	Single Gun, No Boiler, Mobile, External LPG Supply
