

LR03 AAA Alkaline Battery 1.5V

This LR03 AAA alkaline battery has a standard voltage of 1.5V. It is suitable for devices such as flashlights, remote controls, tape recorders, radios, and cameras.

Product Overview

High-Performance LR03 AAA Alkaline Batteries

These LR03 AAA alkaline batteries are designed for reliable power delivery in a wide range of consumer electronics. With a standard 1.5V output, they are optimized for high-drain devices, ensuring consistent performance. Their compact and lightweight design makes them an ideal choice for portable electronics, cameras, and remote-controlled equipment.

Technical Specifications

Battery Type	LR03 AAA Alkaline
Rated Voltage	1.5 V

Physical Dimensions

Physical Dimensions

Measurement	Range
Diameter	9.5 - 10.5 mm
Height	43.3 - 44.5 mm
Weight	11.0 - 11.5 g

Usage & Applications

Recommended Applications	Flashlights, Remote Controls, Tape Recorders, Radios, Cameras, Camera Flash Units
