

Machine Tool LED Lamp E27 Base

This LED lamp is designed for use in machine tools and other industrial applications. It features a clear glass bulb and an E27 screw base.

Product Overview

Industrial-Grade Illumination

This LED lamp is specifically engineered for high-performance use within machine tools and industrial environments. It features a robust design capable of withstanding the demanding conditions of a typical machine shop. With its energy-efficient LED filament technology, it provides a bright, consistent light source while reducing power consumption.

Technical Specifications

Common Applications

- Machine Tools
- Workshop Lighting
- Industrial Equipment

Base Type	E27
Light Source	LED Filament
Durability Features	Industrial Grade, Impact Resistant, Machine Tool Compatible
