

Magnetic Aluminum Level Ruler

This level ruler is made from durable aluminum alloy and features a strong magnetic strip. It is designed for accurate leveling and alignment tasks in construction, carpentry, and DIY projects, and includes bubble vials for multiple angle measurements.

Product Overview

Professional Precision Leveling

This high-strength aluminum alloy level ruler is designed for accuracy and durability in both construction and carpentry environments. Featuring a lightweight yet robust structure, it serves a dual purpose as both a precision level and a measuring ruler. The integrated high-definition scale and fluorescent bubble vials ensure clear visibility, even in low-light conditions, making it a versatile tool for professional projects.

Physical Properties

Material	High-strength aluminum alloy
Key Features	Lightweight, Magnetic Strip, Fluorescent Vials, High-definition Scale
