Product Overview

High-Strength Magnetic Hook Fasteners

These versatile magnetic hook fasteners are engineered for secure and reliable holding power in industrial and commercial environments. Featuring a durable steel casing, these magnets concentrate magnetic force onto the contact surface, ensuring stable attachment to any ferrous material. With a wide range of sizes available, they provide a flexible solution for organizing tools, equipment, and hanging items in workshops, warehouses, and offices.

Technical Specifications

Performance Highlights

15 N

Minimum Holding Force

2000 N

Maximum Holding Force

10 mm

Minimum Diameter

80 mm

Maximum Diameter

Dimensions and Load Capacity

Art No.	D (mm)	H (mm)	Weight (g)	Force (N)
POTN08-10H	10	14.5	5	15
POTN08-12H	12	14	7	20
POTN08-16H	16	14	12	80
POTN08-20H	20	16	21	120
POTN08-25H	25	17	33	220
