Product Overview

Versatile Magnetic Indicator Base

This high-performance magnetic base is designed for precision measurement and positioning in machining, inspection, and assembly environments. It features a multi-jointed universal mechanical arm that allows for flexible positioning of various measuring instruments and probes. With a powerful magnetic hold and fine adjustment knobs, this tool ensures accuracy and stability during critical tasks.

Technical Specifications

Magnetic Force (Model 1)	60 KGS
Magnetic Force (Model 2)	80 KGS
Arm Configuration	Universal mechanical arm
Packaging Type	Paper box
Key Features	On/Off Magnetic Switch, Fine Adjustment, Universal Positioning, Precision Machining
