

Magnetic Nut Setter

This is a magnetic nut setter designed for use with socket wrenches. It features a magnetic tip for secure grip and easy placement of nuts and bolts.

Product Overview

Professional Grade Magnetic Nut Setter

This high-performance magnetic nut setter is designed for efficient fastening in professional construction and assembly environments. Featuring a standard 1/4" hex shank, it ensures compatibility with most impact drivers and drills. The integrated magnet securely holds fasteners in place, allowing for one-handed operation and increased productivity on the job site.
