

Magnetic Pick-Up and Inspection Tool Set

This 3-piece magnetic tool set is designed for retrieving dropped metallic objects and inspecting hard-to-reach areas. It includes a telescopic magnetic pick-up tool, a magnetic tray, and a telescopic inspection mirror.

Product Overview

Versatile 3-Piece Inspection & Retrieval Set

This comprehensive set is designed for professional automotive, mechanical, and DIY applications where precision and accessibility are required. It features specialized tools for retrieving metallic objects from tight spaces and inspecting machinery in areas with limited visibility. The combination of telescopic reach and magnetic organization makes it an essential kit for maintaining an efficient and organized workspace.

Set Components

Included Tools

- Telescopic magnetic pick-up tool
- Magnetic parts tray
- Telescopic inspection mirror

Key Features

Primary Functions

Metallic Object Retrieval • Visual Inspection • Parts Organization • Telescopic Reach

Technical Specifications

Pieces in Set	3
Ideal Applications	Automotive, Mechanical, Industrial Maintenance, DIY

Tool Details

Magnetic Tray Utility	Designed to hold small metallic parts and tools to prevent loss and maintain organization during tasks.
Inspection Mirror Utility	Allows for visual inspection of machinery and equipment in areas with limited visibility.
Pick-up Tool Utility	Telescopic design specifically for retrieving dropped metallic objects from confined or hard-to-reach spaces.
