

Magnetic Spirit Level for Industrial Use

This spirit level features a magnetic base for secure attachment to metal surfaces. It is equipped with three vials for accurate horizontal, vertical, and 45-degree leveling.

Product Overview

Industrial-Grade Precision

This high-performance magnetic spirit level is engineered for demanding industrial and construction environments. Featuring a heavy-duty aluminum frame with a 1.5mm thickness, it offers exceptional structural integrity and long-term durability. Designed for versatile use, the tool incorporates three vials for precise 90°, 180°, and 45° leveling, complemented by two milled surfaces for superior accuracy.

Technical Specifications

Accuracy

0.5 mm/m
Precision

Vial Orientations

- 90°
- 180°
- 45°

Length	100 cm
Frame Thickness	1.5 mm

Design and Durability

Key Features	Heavy Duty Aluminum, Magnetic Base, Milled Surfaces, Anti-shock End Caps
User Experience	Humanized rubber handle for comfort during extended use
