

Magnifying Helping Hand Tool with Alligator Clips

This tool features a heavy-duty cast iron base for stability. It includes a 2.5-inch, 2X magnifying glass and dual alligator spring clamps mounted on adjustable ball joints.

Product Overview

Precision Assistance Tool

The Magnifying Helping Hand Tool is a versatile solution designed for intricate tasks that require both precise manipulation and enhanced visibility. Featuring adjustable alligator clips on flexible arms, it securely holds small components at optimal angles for detailed work. With a heavy, stable base and an integrated magnifying glass, this tool is an essential aid for electronics assembly, model making, jewelry repair, and other high-precision applications.
