

# Maintenance-Free Lead-Acid Storage Battery

This maintenance-free lead-acid (LA) storage battery is designed for various applications. It provides a reliable power source with minimal maintenance needs, featuring robust construction and excellent charge retention.

## Product Overview

### Professional Lead-Acid Storage Battery

This maintenance-free lead-acid storage battery provides a reliable and long-lasting power solution for professional standby applications. Built for consistent performance, it offers excellent charge retention and is designed to handle demanding environments without the need for periodic maintenance. Its robust construction makes it an ideal component for UPS systems, emergency lighting, and various other power-critical deployments.

## Technical Specifications

Nominal Voltage	12 V
Capacity	94 AH
Cold Cranking Amps (SAE)	540 A

## Features

Maintenance  
Maintenance-Free

### Performance Key Metrics

<b>540 A</b> Rated Current	<b>94 AH</b> Capacity
-------------------------------	--------------------------

Typical Applications	UPS, Emergency Lighting, Standby Power
