

Malleable Iron Pipe Fittings

Malleable iron pipe fittings provide durable and reliable connections for plumbing and piping systems. The fittings are heat-treated to improve tensile strength and ductility, making them suitable for demanding applications.

Product Overview

Durable Malleable Iron Fittings

Malleable iron pipe fittings are essential components in plumbing and piping systems, providing durable and reliable connections for various fluids and gases. These fittings are manufactured from heat-treated cast iron to improve tensile strength and ductility, allowing them to withstand high pressures and temperatures. Their threaded connections ensure a secure and leak-proof seal, making them a trusted choice for constructing robust and efficient piping networks in industrial, commercial, and residential settings.

Technical Specifications

Fitting Type	Beaded, Banded
Available Sizes	1/2" to 6"

Certifications

Quality & Compliance
ISO 9001 • BSI
