

Malleable Iron Wire Rope Clip DIN741

This malleable iron wire rope clip is designed according to DIN741 standards for creating secure wire rope loops. It features a U-bolt, saddle, and tightening nuts, available in various sizes.

Product Overview

Malleable Iron Wire Rope Clip DIN741

The DIN741 Malleable Wire Rope Clip is engineered for creating secure loops or terminations on wire ropes. Featuring a robust U-bolt, saddle, and dual-nut design, it ensures a reliable and firm grip for various rigging and securing applications. Available in a range of sizes from 3mm to 40mm, this component is built to provide consistent performance in demanding environments.
