

Manual Cable Winch

This heavy-duty hand winch is designed for pulling and lifting tasks. It features a durable steel frame, high-strength cable, and a smooth-operating ratchet mechanism.

Product Overview

Heavy-Duty Manual Hand Winch

This manual hand winch is engineered for reliable pulling and lifting applications in demanding environments. Constructed from durable A3 steel with a galvanized surface treatment, it provides excellent resistance to wear and corrosion. With a 2000lbs working load capacity and a dual gear ratio system, this tool offers controlled and efficient operation for workshops, garages, and outdoor tasks.
