

Manual Cartridge Caulking Gun

This hand-operated tool dispenses sealant or adhesive from cartridges. The metal frame provides durability and the trigger mechanism allows for controlled material flow.

Product Overview

Professional Manual Caulking Gun

This manual cartridge caulking gun is designed for the precise application of sealants and adhesives. It features a durable steel body with an integrated anti-drip mechanism for cleaner work environments. Engineered for user comfort, the handle includes finger grips to reduce fatigue during extended use.
