

Manual Ceramic Tile Cutter

This manual tile cutter is designed for cutting ceramic and porcelain tiles. It utilizes a scoring wheel and breaking mechanism to cleanly separate tiles along a precise score line.

Product Overview

Professional Manual Tile Cutter

This manual tile cutter is engineered for precise scoring and clean separation of ceramic and porcelain tiles. Designed for stability and accuracy, it features a robust base and adjustable guides to facilitate consistent, repetitive cuts. It serves as a reliable solution for both professional tiling installations and demanding DIY projects.
