

Manual Chain Hoist

This manual chain hoist is designed for lifting heavy loads in industrial environments. It is constructed with high-strength alloy steel and features a safety latch on the load hook.

Product Overview

Heavy-Duty Manual Chain Hoist

This robust manual chain hoist is engineered for reliable lifting and precise positioning of heavy loads in industrial environments. Constructed with high-strength alloy steel, it ensures exceptional durability and safety during operation. The unit features a smooth-operating hand chain and a load chain that meets international standards, making it an ideal solution for construction sites, warehouses, and workshops.

Technical Specifications

Performance Data

Model	Capacity (T)	Lifting Height (m)	Weight (kg)
308A-1002	0.5	2.5	9.4
308A-1004	1	2.5	12
308A-1006	2	2.5	17
308A-1008	3	3	25
308A-1010	5	3	45

Features

Key Features

- High-strength alloy steel construction
- Includes safety latch on load hook
- Smooth-operating hand chain mechanism
- Complies with international chain standards
