

Manual Chain Hoist

This manual chain hoist is designed for heavy-duty lifting in industrial and construction environments. It features a durable steel housing and a robust chain mechanism for smooth, efficient operation.

Product Overview

Industrial-Grade Manual Chain Hoist

The Model HSZ-C Chain Block is a heavy-duty lifting device engineered for demanding industrial and construction environments. Featuring a robust steel housing and high-strength alloy steel components, it ensures long-term reliability and protection against harsh operating conditions. Its compact design facilitates efficient material handling, even in confined spaces, while integrated safety latches on both hooks provide essential operational security.

Technical Specifications

Safety Features

- Safety latch on top hook
- Safety latch on load hook

Construction Material	High-strength alloy steel, Durable steel housing
Country of Origin	China

Performance Metrics

Lifting Capacity

1 TON

Rated Capacity
