Product Overview

Robust Lifting Solution

The 622 Series Manual Chain Hoist is a reliable lifting device engineered for demanding industrial and construction environments. Built with high-strength alloy steel components, it ensures exceptional durability and safety during operation. Its compact and lightweight design facilitates easy portability and installation, even in confined workspaces, while the integrated load-limiting mechanism provides essential protection against overloading.

Key Features

Performance Metrics

622

Series Model

Safety Mechanisms

- Load-limiting device
- Precision-machined lifting mechanism
- Wear-resistant chain components

Best For

Industrial • Construction • Confined Spaces

Material Composition

High-strength alloy steel, Hardened alloy steel chain
