

# Manual Citrus Juice Press with Measurement Container

This citrus juicer offers simple operation and high efficiency for extracting juice from citrus fruits. It features a transparent container with measurement markings for easy monitoring of juice levels.

## ADDITIONAL IMAGES

## Product Overview

### Efficient Citrus Extraction

This electric citrus juicer is designed for reliable and efficient juice extraction from oranges, lemons, and limes. It features a user-friendly design with a 600ml transparent container, allowing for precise measurement of juice output in both milliliters and fluid ounces. With its low-noise AC motor and convenient cord storage, it is an ideal addition to any kitchen or hospitality setting.

## Technical Specifications

### Power Rating

**30 W**

Power Output

### Voltage & Frequency

220-240V 50/60Hz

### Motor Type

AC Motor (Low Noise)

## Design & Capacity

### Key Features

- Two-direction rotation for maximum yield
- Plastic pulp container filter
- Detachable transparent container
- Integrated cord storage
- Pouring spout for easy dispensing

### Juice Container Capacity

600 ml

### Included Components

Juicer Container, Press Cone, Pulp Filter, Lid
