

# Manual Citrus Juicer with Handles

This manual citrus juicer is designed for efficient juice extraction from citrus fruits. It features a fluted reamer and side handles for stability during use.

## Product Overview

### Manual Citrus Juicer

This manual citrus juicer is designed for efficient and reliable juice extraction from lemons, limes, and oranges. Constructed with a polished, durable metal finish, it features a fluted, dome-shaped reamer and side handles for enhanced stability during operation. Its smooth surface ensures ease of cleaning, making it a practical tool for professional kitchen environments.
