

Manual Floor Sweeper with Telescopic Handle

This is a manual floor sweeper designed for efficient cleaning of hard surfaces. It features a lightweight, telescopic handle for adjustable reach and comfortable use.

Product Overview

Efficient Manual Cleaning Solution

This manual floor sweeper is designed for rapid and effective debris removal on hard surfaces. Featuring a lightweight construction and an adjustable telescopic handle, it offers ergonomic operation for various user heights. Its rotating brush system excels at gathering dust and dirt, making it a perfect tool for maintaining hardwood, tile, and laminate floors with ease.
