

# Manual Fluid Transfer Pump

This hand-operated pump is designed for efficient fluid transfer in industrial and agricultural applications. It features durable construction and an ergonomic handle for comfortable operation.

## Overview

### Industrial Fluid Transfer Solution

The IQ100-212HOA is a robust manual pump engineered for efficient fluid transfer in industrial and agricultural settings. Designed for reliability in environments where electricity is unavailable, this unit features an ergonomic handle to reduce operator fatigue while maintaining a consistent flow. Its compact, lightweight construction ensures portability and easy integration into existing plumbing systems for water, oil, and non-corrosive liquid applications.

## Performance Metrics

Displacement	146 m <sup>3</sup> /h
Maximum Lift	21.6 m
Suction Height	9.5 m

## Technical Specifications

Model	IQ100-212HOA
Operating Speed	1450 r/min
Power Rating	7.5 kw

## Features

### Product Highlights

- Manual operation for off-grid use
- Ergonomic handle design
- Compact and portable construction
- Standard inlet/outlet connections

Compatible Fluids	Water, Oil, Non-corrosive liquids
