Product Overview

Manual Gable Top Carton Filling Machine

This manual gable top carton filling machine is designed for efficient, small-to-medium scale packaging of liquid and dry products. It features a multi-stage workflow including carton forming, capping, filling, and sealing, ensuring a complete packaging solution in one unit. Built to handle a variety of products from beverages like milk and juice to sauces and dry powders, it offers versatility for diverse production needs.

Performance Metrics

Key Performance Indicators

500 cartons/hour

Output

1000 ml

Max Capacity

15 KW

Power

Technical Specifications

Filling Temperature Range	Cold filling: 2-50°C / Hot filling: 88-92°C
Dimensions (L*W*H)	1.6m x 1.2m x 1.8m
Net Weight	500 kg

Operational Requirements

Installation Requirements

- Smooth floor (cement, tile, plastic)
- No special angle required
- Three-phase electricity

Compressed Air Requirements

0.8-1.0 Mpa, Flow rate e 0.4M3/min (oil/water/dust free)

Cooling Water

Flow volume e 20L/min at normal temperature

Compatibility

Suitable Products

Milk, Yogurt, Juice, Soy Milk, Tea, Sauces, Dry Powder, Spices

Commercial Terms

Delivery Time

Machine Type	Lead Time
Automatic Filling Machine	60 days
Semi-automatic Filling Machine	45 days
Manual Filling Machine	30 days

Guarantee

12 Months Warranty
