

Manual Grass and Hedge Shears

Hand-operated shears are designed for precise trimming and shaping of grass, hedges, and other plants. They feature ergonomic handles for a comfortable grip and hardened steel blades for durability.

Product Overview

Professional Manual Shears

These manual grass and hedge shears are engineered for precision trimming and shaping in professional or home gardening environments. Featuring high-carbon steel blades with a protective Teflon coating, they offer exceptional durability and smooth cutting action. The versatile 5-position adjustable design allows users to achieve the perfect angle for various tasks, supported by comfortable molded grips for extended use.
