

Manual Grass Shear with Ergonomic Grip

These grass shears are designed for precise trimming and edging in gardens and lawns. They feature hardened steel blades for long-lasting sharpness and ergonomic handles for comfortable grip.

Overview

Precision Grass Trimming

These 13-1/4 inch manual grass shears are designed for professional-grade trimming and edging tasks in lawns and gardens. Featuring a robust construction with specialized blade coatings, they ensure clean, efficient cuts while maintaining long-lasting sharpness. The ergonomic design focuses on user comfort, incorporating vinyl-gripped steel handles and a secure locking mechanism for safe storage.
