

Manual Grease Dispenser Pump

This manually operated grease pump dispenses lubricants in industrial and automotive settings. The foot-operated design allows hands-free operation, enhancing efficiency for maintenance and repair.

Product Overview

Manual Grease Dispenser Pump

This manually operated grease pump is engineered for reliable lubrication in industrial and automotive environments. Featuring a durable steel construction, it utilizes a high-pressure delivery system to ensure efficient grease application even in demanding conditions. The foot-operated design allows for hands-free operation, significantly improving efficiency and ease of use during maintenance and repair tasks in workshops and factories.

Technical Specifications

Operation Method	Manual (Foot-operated)
Material	Steel
Suitable Applications	Industrial, Automotive, Workshop, Factory Maintenance

Features

Key Features

- Foot-operated design for hands-free use
- High-pressure delivery system
- Flexible hose included
- Durable steel construction
