Overview

High-Performance Manual Grease Lubrication

This high-pressure manual grease pump is engineered for demanding industrial and automotive lubrication tasks. Designed with a durable steel construction and a large capacity reservoir, it ensures extended operation times for machinery maintenance. The unit features a convenient foot-operated mechanism for hands-free grease application, supported by a flexible hose and versatile nozzle attachments for precise, reliable performance.

Technical Specifications

Model Specifications & Packaging

Capacity	Qty/Ctn	G.W. (kg)	N.W. (kg)	Dimensions (cm)
16L	2	14	13	57×26×59
16L	2	15	14	63×29×59
16L	2	17	16	65×29×59
20L	1	9.5	9	34×34×60
20L	1	9	8	45×25×59

Available Capacities

16L, 20L

Features

Key Features

- High-pressure manual operation
- Durable steel construction
- Hands-free foot pedal mechanism
- Includes flexible hose and nozzle attachments
- Integrated wheels for easy maneuverability
