

Manual Hand Saw for Woodworking

This hand saw is a manual cutting tool used for sawing wood and other materials. It features a toothed blade attached to a handle, allowing controlled cutting through pushing and pulling motions.

Product Overview

Manual Hand Saw for Woodworking

This manual hand saw is a versatile cutting tool engineered for woodworking, carpentry, and construction tasks. It features a durable toothed blade designed for efficient cutting through lumber and various wood materials. The ergonomic handle ensures a comfortable grip, minimizing user fatigue during extended use. Designed for reliability, this tool supports precise pushing and pulling motions for controlled shaping and trimming.

Technical Details

Primary Applications

- Woodworking
- Carpentry
- Construction
- Lumber cutting
- Material shaping

Model Number	DT1709
Blade Characteristics	Hardened teeth, Manual operation, Woodworking optimized
