

Manual Hedge Shears with Ergonomic Grips

These hedge shears are designed for shaping and maintaining hedges and shrubs. They feature sharp, durable blades for clean cuts and ergonomic grips for comfortable use.

Product Overview

Professional Hedge Maintenance

These manual hedge shears are engineered for precision and durability in landscaping and garden maintenance. Featuring heat-treated blades with a hardness rating of HRC 50-55, they ensure clean, efficient cuts for various shrubbery. The design incorporates telescopic handles to provide extended reach and ergonomic grips to minimize user fatigue during prolonged operation.
