

Manual Hot Water Dispenser Airpot

This manual pump airpot does not require electricity, making it suitable for serving hot water anywhere. It features an automatic dispense button for convenient hot water dispensing.

Product Overview

Efficient Hot Water On-Demand

This manual hot water dispenser airpot is designed for reliable performance in both home and office environments. With a generous 3.3-liter capacity, it provides consistent hot water access throughout the day. The unit features intuitive controls, including reboil and keep-warm functions, ensuring water is always at the desired temperature when needed.
