

Manual Hot Water Dispenser Airpot

This airpot features a manual pump, eliminating the need for electricity. It also has an automatic dispense button for easy hot water access.

Overview

Efficient Hot Water Solution

This manual hot water dispenser airpot is designed for reliable performance in both home and office environments. With a generous 3.8L capacity, it ensures a steady supply of hot water for beverages throughout the day. Its intuitive design includes a clear water level indicator for easy monitoring and a user-friendly control panel, making it a practical addition to any breakroom or kitchen setting.
