

# Manual Hydraulic Stacker

This manual hydraulic stacker is designed for lifting and transporting heavy loads in industrial environments. It features a robust steel frame, adjustable forks, and a hand-operated hydraulic pump for raising and lowering materials.

## Product Overview

### Manual Hydraulic Stacker

This manual hydraulic stacker is engineered for efficient lifting and transporting of heavy loads within industrial settings. Built with a robust steel frame, it ensures durability and reliability for daily operations in warehouses and workshops. The unit features an intuitive hand-operated hydraulic pump, adjustable forks for versatile material handling, and a safety mechanism designed to prevent overloading during use.

## Technical Specifications

Operation	Manual Hydraulic
Frame Material	Robust Steel
Key Features	Adjustable Forks, Hand-Operated Pump, Safety Overload Mechanism, Easy Maneuverability

## Application

### Ideal Environments

- Warehouses
- Workshops
- Factories
- Industrial Facilities
