

# Manual Leaf Trimming Machine with Stainless Steel Bowl

This manual leaf trimmer is designed for the efficient removal of unwanted leaves from plants. It features a durable stainless steel hemispherical bowl and a rotating handle for precise trimming.

## Product Overview

### Efficient Manual Trimming Solution

This manual leaf trimming machine features a durable stainless steel bowl and a high-efficiency gearbox transmission that multiplies rotation speed for rapid processing. Designed for portability and ease of use, it allows for quick, precise manicuring of various herbs and cash crops. The transparent lid provides full visibility during operation, while the included rubber fingers ensure gentle yet effective handling of plant matter.

## Technical Specifications

Construction Materials	Stainless Steel, Plastic, High-density Rubber
Operation Type	Manual (Hand Crank)
Gearbox Multiplier	30 x
Batch Capacity	40 g

## Key Features

### Key Features

- Transparent lid for visual monitoring
- Inverted rubber twist spin blades
- Lightweight and portable design
- Easy to clean and maintain
- Fast and efficient cutting

## Applications

### Compatible Crops

Basil • Coriander • Lavender • Mint • Parsley • Oregano • Rosemary
