

Manual Lever Airpot Dispenser

This manual pump airpot requires no power, making it ideal for serving beverages in any location. It features an automatic dispense button for easy hot water dispensing.

Product Overview

Professional Airpot Dispenser

This manual lever airpot dispenser is designed to maintain optimal temperatures for hot or cold beverages over extended periods. Featuring a robust stainless steel construction, it is built for durability in high-demand environments. The integrated water level window ensures users can easily monitor liquid levels, while the simple lever mechanism allows for convenient and controlled dispensing.
