

Manual Lever Citrus Juicer with Stainless Steel Reamer

This citrus juicer is a manual juice extractor with a lever-action mechanism for efficient citrus fruit juicing. It features a stainless steel reamer and a drip-free spout for easy pouring.

Product Overview

Professional Citrus Extraction

The JE-632 series citrus juicer is designed for efficient, high-volume juice extraction in professional or home environments. Featuring a robust lever-action mechanism and a durable stainless steel spout with an anti-drip function, it ensures clean and effortless operation. The unit is built with a sturdy plastic housing and includes detachable parts for easy cleaning and maintenance.
