Product Overview

Heavy-Duty Manual Fluid Transfer

This robust manual oil pump is engineered for efficient fluid transfer of non-corrosive liquids such as petrol, kerosene, diesel, and lubricating oils. Constructed with a durable cast iron body and chrome-plated steel components, it offers reliable performance for industrial and workshop environments. Designed for secure mounting on drums or tanks, the pump features an adjustable inlet tube and a consistent flow rate, making it a versatile tool for daily maintenance and refueling tasks.

Performance Metrics

Performance Specifications

22 L/min

Flow Rate

70 R/min

Rotative Velocity

1.5 M

Suction Distance

5 M

Lift Distance

Construction & Compatibility

Compatible Liquids

- Petrol
- Kerosene
- Diesel
- Machine Oil
- General Lubricants

Construction Materials

Cast Iron Body, Steel Spout, Alloy Copper Blades, Bakelite Blades, Carbon Blades
