

Manual Pipe Cutter

This manual pipe cutter provides clean and precise cuts on various pipe materials. Its robust frame, sharp cutting wheel, and ergonomic handle make it suitable for plumbing, HVAC, and industrial applications.

Product Overview

Professional Manual Pipe Cutter

This manual pipe cutter is designed for efficiency and longevity in demanding work environments. Featuring replaceable, heat-treated blades, it ensures sharp and durable performance for quick, clean cuts. It is an essential tool for plumbing and HVAC professionals requiring versatility across various pipe materials.

Performance

Blade Characteristics

- Replaceable blade design
- Heat-treated steel
- High durability
- Fast cutting action

Cutting Precision

Adjustable feed mechanism • Guide rollers for stability

Compatible Pipe Materials

Aluminium, PVC, PPR, PE Composite

Design

Design Features

- Ergonomic handle for comfortable grip
- Controlled pressure application
- Curved frame design

Application

Primary Applications

Plumbing, HVAC, Industrial
