

Manual Plastic Tile Cutter

This is a compact and portable tile cutter designed for cutting plastic tiles. It features a ribbed cutting table for secure tile placement, an adjustable cutting guide for precise cuts, and a water cooling system to reduce dust and friction.

Product Overview

Compact Tile Cutting Solution

This manual tile cutter is specifically engineered for precision cutting of plastic tiles. Designed for portability and efficiency, it features a ribbed cutting table to ensure tiles remain secure during operation. With an adjustable cutting guide and an integrated water cooling system, it minimizes friction and dust, making it an ideal tool for small to medium-sized tiling projects.

Technical Specifications
