

Manual Push Floor Sweeper

This manual floor sweeper is designed for efficient cleaning of various surfaces. It features rotating brushes that sweep debris into a collection hopper.

Product Overview

Manual Push Floor Sweeper

This manual floor sweeper is designed for efficient cleaning of various surfaces, utilizing rotating brushes to effectively sweep debris into an integrated collection hopper. As a manually operated unit, it offers versatility for both indoor and outdoor environments without the need for fuel or electricity. Its compact and durable construction ensures easy maneuverability and long-lasting performance for hard surfaces.

Technical Specifications

Operation	Manual push
Applicable Surfaces	Indoor floors, Sidewalks, Driveways, Hard surfaces

Key Features

Product Highlights

- Rotating brush cleaning system
- Integrated debris collection hopper
- Compact design for storage
- Durable heavy-use construction
