

# Manual Sanding Block with Clamps

This manual sanding block is made of red plastic. It features a contoured grip for comfortable handling and metal clamps to hold sandpaper securely.

## Product Overview

### Versatile Manual Sanding Solution

This manual sanding block is designed to provide a reliable, flat, and even surface for consistent sanding results across a variety of materials. It features an ergonomic contoured grip to ensure comfortable handling during extended tasks, and integrated metal clamps on both ends that securely hold sandpaper in place. Ideal for professional B2B applications where manual precision and surface preparation are required.
