Product Overview

Manual Sheet Metal Punching Machine

This manually operated punching machine is designed for reliable and efficient hole punching in various sheet metal applications. It features a robust, durable frame and an optimized lever-action mechanism that provides consistent punching power with ease of operation. Perfectly suited for low-volume production, prototyping, and on-site fabrication, it offers a cost-effective solution for small to medium-scale metalworking tasks.

Technical Specifications

Model	PY-72
Hole Diameter Range	5mm - 35mm
Maximum Material Thickness	4 mm

Dimensions and Weight

Net Weight	72 kg
Gross Weight	82 kg
Packing Dimensions	520 x 220 x 860 mm

Key Features

Highlights	Easy Operation, Robust Frame, Lever-Action Mechanism, Adjustable Workpiece Holder, Hardened Steel Tooling
